

Intelligent Manufacturing Contributes to Chinese-Style Modernization—Global Intelligent Manufacturing 2030: Co-Creating the Future

Date: 08:50-12:00 a.m., November 6, 2025

Venue: Hall C2, Hall 4.2, National Exhibition and Convention Center (Shanghai)

Hosts: Ministry of Industry and Information Technology of the People's Republic of China, Ministry of Commerce of the People's Republic of China

Introduction:

The new round of scientific and technological revolution and industrial transformation is reshaping the global landscape of innovation and industries. As a representative of the integration of advanced manufacturing and information technology, intelligent manufacturing has become a crucial direction for the upgrading of the global manufacturing industry. This forum will invite senior representatives and experts from governments, domestic and foreign academic circles, and industrial sectors to jointly explore the cutting-edge trends and hot topics of intelligent manufacturing under the new development pattern, and contribute to promoting global exchanges and cooperation in intelligent manufacturing as well as the development of the world's industry and economy.

Program:

Host: Zhu Min Vice President of China Center for Information Industry Development
Member of the National Intelligent Manufacturing Expert Committee
