

# Fostering Resilient Global Industrial and Supply Chains through Open Cooperation among Enterprises

**Time:** 09:30am-11:00am, November 6<sup>th</sup>, 2025

**Venue:** A1 Hall, Pavilion No. 4.2

**Hosts:** State-owned Assets Supervision and Administration Commission  
of the State Council, PRC (SASAC)  
Ministry of Commerce of the People's Republic of China (MOFCOM)

## Introduction:

At present, new technological revolution and industrial transformation are getting more profound, the global industrial structure and layout are being reshaped, the world is moving faster to embrace a digital, green and smart economy. Maintaining the stability of global industrial and supply chains is an important guarantee for promoting the healthy development of the world economy. This session gathers representatives of well-known enterprises from both home and abroad, international organizations, as well as experts, scholars and government officials. Through the panel discussion and interactive sharing, the session will discuss how to deepen international industrial and supply chain cooperation and jointly build an synergistic industrial ecosystem to enhance the resilience of global industrial and supply chains, strengthen enterprises' integration capability of sci-tech innovation and industrial innovation, optimize resources allocation, improve the international governance efficiency, thus promoting the value co-creation and win-win development among enterprises.
