China International Import Expo

The China International Import Expo (hereinafter referred to as the CIIE) is a major initiative personally planned, proposed, deployed, and advocated by President Xi Jinping. It represents a significant decision by China to advance high-level opening-up in the new era and serves as an important initiative for China to open its market to the world. Since its inaugural session in 2018, the CIIE has been consistently serving as a platform for four key functions: international procurement, investment promotion, cultural exchange, and open cooperation. It has become a gateway to building a new development pattern, a platform for promoting high-level opening-up, and an international public good shared by the world.

CIIE

Upholding the theme of “New Era, Shared Future”, the 7th CIIE will be held from November 5 to 10 in Shanghai, alongside the Hongqiao International Economic Forum (HQF). The exhibition will span over 420,000 square meters, featuring participation from 152 countries, regions, and international organizations in both country and enterprise exhibitions. The Hongqiao Forum will feature a main forum and 19 sub-forums. We warmly invite government officials, business leaders, exhibitors, and buyers from all countries to join us at 7th CIIE. This will be a unique opportunity to tap into the vast Chinese market, share development opportunities, and achieve mutually beneficial outcomes.
