
Appendix 4 Notice on Network Security Control

1. General Requirements

Exhibitors, constructors and service providers shall earnestly comply with the network security policies and guidelines of the People's Republic of China and Shanghai Municipality, and strictly observe regulations, ordinances and provisions, including *Cyber Security Law of the People's Republic of China*, *Telecommunications Regulations of the People's Republic of China*, *Decision of the Standing Committee of the National People's Congress on Internet Security Protection*, *Computer Information Network and Internet Security Protection and Management Regulations*, *Provisions on the Technical Measures for the Protection of the Security of the Internet* as well as other relevant laws, regulations, administrative rules, and documents.

2. Access Instructions

- 2.1 There are two ways to access Internet at the site of CIIE: wired broadband connection and free public Wi-Fi. Users shall use their own network access devices (including routers, computers, smartphones, etc.).
- 2.2 Matters on network access to the broadband on the venue shall be handled as per the Internet application processes of the Organizers. The independent application for network access via any other channel is not allowed. For any network access via any unofficial channel without permission, the Organizers shall have the right to suspend network access. If the circumstance is serious, the Organizers will coordinate with relevant departments to investigate and treat relevant persons according to the law.
- 2.3 The Organizers shall have the right to use appropriate technologies to monitor network access. If any commercial activity is conducted through the network without permission (e.g., use of the wired broadband to build a cross-booth network or build a wireless network, etc.), the Organizers shall have the right to claim corresponding charges and take such measures as network outage and/or prohibition from access.
- 2.4 Exhibitors, constructors or service providers shall not cause damage to any network facility or leased equipment inside the venue. Otherwise, they shall be liable to make corresponding compensations.

3. Safety Control

- 3.1 It is required to abide by the Internet security laws, public order and social ethics of the People's Republic of China and shall not undermine the network security. They shall not use the Internet to endanger the national security, dignity and interest of the People's Republic of China, instigate any attempt to subvert the state power of China, overthrow the socialist system or divide or disunify the country.
- 3.2 It is prohibited to use the Internet to advocate terrorism, extremism, racial hatred, discrimination, or spread violent or pornographic information; to fabricate or spread false information that may disrupt economic and social order; and to illegally access personal information of others or infringe on others' reputation, privacy, intellectual property rights and other legitimate rights and interests, etc.
- 3.3 In accordance with the cyber security laws of the People's Republic of China, the staff members of the exhibitors, constructors and service providers that intend to access the Internet shall login to the network using their verified IDs and shall retain their user registration information, cooperate with concerned government departments if necessary, and provide relevant data.
- 3.4 Exhibitors, constructors or service providers shall use the network services appropriately and shall not create Wi-Fi hotspots without permission; in case there is any situation that may undermine the network security and operation, the Organizers shall have the right to terminate such users' Internet access.
- 3.5 As the network is partially open, exhibitors shall independently take precautions to protect their computers, update their operating systems and install security management and antivirus software, to prevent leakage or loss of any personal information; in case of any data leakage, they shall be liable for the consequences.
- 3.6 Any exhibitor intending to independently set up a large LED screen for presentation purposes shall appoint professional personnel to manage it; if the screen needs to be connected to the Internet, the exhibitor shall take appropriate precautions against hacking, tampering, interruption and unauthorized setting.
- 3.7 To ensure safe and successful operation of network services, the Organizers have the right to conduct network control and management in some sections during certain periods of time and adjust or disable certain network access ports (including securities, BT, Thunder, games, etc.) without prior notice.
