Exhibitor & Exhibit Information of the Third China International Import Expo

General No. 21

Food and Agricultural Products (No. 5)
Notice for Reading

Dear readers and users of the *Exhibitor and Exhibit Information of the Third China International Import Expo*,

On the basis that exhibitors volunteer to provide relevant information, the China International Import Expo Bureau (hereinafter referred to as the "CIIE Bureau") compiles, not for profit, and freely provides the *Exhibitor and Exhibit Information of the Third China International Import Expo (CIIE)* (hereinafter referred to the Exhibitor and Exhibit Information) in order to timely provide buyers and relevant units with information about the exhibitors and their exhibits and facilitate the matchmaking and negotiation before the CIIE.

The information on relevant exhibitors, their commodities or services has been provided by corresponding exhibitors of the third CIIE. Meanwhile, such exhibitors will be liable for the truthfulness, accuracy, and validity of what they have provided. The CIIE Bureau just collects, arranges, and releases relevant information.

When you read or use the *Exhibitor and Exhibit Information*, please contact the CIIE Bureau timely if any untruthful or unfaithful information is found, for prompt verification and correction. If any suspected illegal condition is found, relevant legal provisions can be referred to for disposal or please immediately contact the CIIE Bureau and we will remind relevant units for rectification.

It is hereby declared.

Introduction to Exhibition Area

The Food and Agricultural Products Exhibition Area is one of the Business Exhibition's exhibition areas with the largest area and most exhibitors from the widest range of countries. It reflects the highest level of the global food sector and builds a professional trading platform for international food markets.

The Food and Agricultural Products Exhibition Area is planned to cover an area of 90,000 square meters during the third CIIE. In addition to exhibits like meat and dairy products, organic food and prepackaged food will also be displayed to advocate green, healthy and safe production of agricultural products. At that time, multiple enterprises from more than 100 countries will exhibit organic and healthy "local specialties" and all kinds of processed foods integrated with modern science and technology. The exhibitors include not only the enterprises on the list of Fortune Global 500 and industrial leaders but also representative enterprises from countries and regions along the "Belt and Road" and emerging market economies. While expanding their market share in China, they will gather the strength of the whole industry chain to continuously improve the scientific and technological
content in their products in order to provide Chinese consumers with diversified innovative products. To give full play to the role of the CIIE as a platform, the related ministries of the country and business associations will hold a number of supporting activities related to the theme of the exhibition area to provide exhibitors and buyers with relevant policy information and dynamic conditions of food and agricultural products industries.
DANONE

◆ Brief Introduction to Exhibitors

DANONE, a global Fortune Global 500 corporation, is specialized in special nutrition, water and drinks, essential dairy and plant-based products. It has participated in the previous two sessions of CIIE. DANONE has run its business in more than 120 markets around the world, with more than 100,000 employees. It realized the sales revenue of about 25.3 billion euros in 2019. China is now the second-largest market of DANONE in the world. It has operated many famous brands in China, including Aptamil, Nutrilon, Cow & Gate, Karicare, Nutricia, Mizone, Evian, VEGA ONE and Activia.

**Aptamil Essensis Organic A2 Protein Milk**

It combines Nutricia's unique patented synbiotic blend with advanced, scientific, rare and organic A2 protein milk, making it the unique formula with A2 protein and organic milk.

Picture 2: Advertising Diagram of Aptamil Essensis Organic A2
Pepti-Junior Whey-Based Extensively Hydrolyzed Infant Formula Powder

This extensively hydrolyzed infant formula powder is imported from the Netherlands with the original packaging. The hydrolysis technology is utilized to break down the major allergen β-whey protein in milk protein into small peptide chains and free amino acid.

Aptamil Allecure Pepti Syneo Extensively Hydrolyzed Whey Protein Formula

It is designed for the dietary management of cow's milk protein allergy. It is a 100-percent extensively hydrolyzed whey protein formula with a combination of probiotics and prebiotics.
VEGA ONE Sport Plant-based Nutrition Powder &

VEGA ONE Plant Protein Nutrition Powder

These products contain multi-amino acids. The multi-source plant proteins enrich the nutrition spectrum of VEGA ONE products. The products are free from artificial colorants and sweeteners, pass the U.S. non-GMO certification and the NSF Certified for Sport® banned substance test.

The a2 Milk Company Limited

◆ Brief Introduction to Exhibitors

The a2 Milk Company Limited was founded by Dr. Corran McLachlan and Howard Paterson in New Zealand. It has participated in the second CIIE. As a pioneer in A2 protein, The a2 Milk Company Limited has focused on scientific research on A2 protein for nearly 20 years. At present, it holds more than 60 patents around the world. The company produces products for expectant mothers, infants, children and adults and would like to bring different consumers the same high-quality product experience through abundant product portfolios.
