Introduction:

The parallel session " Digital Economy Shapes the Future World " invites participation from heads of international organizations, leading domestic and international scientists, industry leaders, representatives of venture capital institutions and think tanks. The session is committed to achieving consensus on the development of the digital economy, to exchanging innovative ideas and concepts from around the world, to debating how the digital economy era can drive the growth of the future world, to enhancing the global economic vitality and industrial innovation capabilities in the post-epidemic age, and to reshaping our future into a world of innovative and sustainable development.
