Introduction:

The green circular economy is a necessary condition for the sustainable development of the global economy. To develop green finance is an important measure to promote green development. Green finance can provide a long-lasting impetus for green economy and social sustainable development through financial resources. Centered on the experiences and practices in green finance development of different countries, this topic will focus on the opportunities, paths and cooperation for further promoting global green economy and sustainable development on the strength of green finance in the post-pandemic era.
